

The Global Becca Foundation

September, 2017

Dear Colleagues and Education Partners,

You are cordially invited to apply for the grant “Research and Action Research and Program Implementation for International Student Transfers from Community Colleges to Selective American Universities”. The Foundation is very excited to look into the work existing and planned that is connected with a local community college district in California. We hope the outcome will allow the implementation of a comprehensive support model to increase international transfer success among those who have started their pathway to transfer while at a community college.

As a university you are aware of the work in transfer from community colleges to universities. Therefore, the specific interest of the Foundation in developing a model for international students may be a good match with your mission and operations. On behalf of the Foundation I would like to invite you to consider submitting a proposal.

Please access the grant proposal page for details. Please note the deadline of the proposal.
